Experience

Druv 360°

Junior Full Stack Developer   *Oct 2024 - Present*

- Collaborated on the development of Service Connect, a platform enabling users to book services, enhancing service delivery efficiency by 20%.
- Designed and implemented reusable React components, improving development speed and code reusability by 30%.
- Employed Agile methodologies to prioritize tasks, foster collaboration, and deliver features ahead of deadlines.

Projects

eASY SHOP - e-Commerce Hub

- eASY SHOP is designed for every user, including those with limited English skills or first-time users, to easily explore and use the app. It provides a responsive, user-friendly platform with all the essential features of an e-commerce site.
- By simplifying the complexity often found in platforms like Amazon, I built an intuitive, easy-to-navigate system that offers the full functionality of major e-commerce platforms while ensuring a hassle-free experience for everyone.
- **Explore eASY SHOP:** click here
- **GitHub Repository:** click here
- **Tech Stack**: MongoDB, Express, Node.js, Handlebars, CSS3, Bootstrap, JavaScript, Razorpay API, Canva, etc.

Hospital Management System

- A comprehensive web application designed to streamline hospital operations through two distinct portals: Patient Portal and Admin Portal.
- **Key Features:** User Authentication, Password Encryption, Cloudinary Integration, Appointment Management, Error Handling, Validation, Role-Based Access.
- **Explore the app:** click here
- **GitHub Repository:** click here
- **Tech Stack:** React, Node.js, CSS3, MongoDB, Express, Cloudinary, JWT, etc.

MovieMan

- MovieMan is a modern movie guide platform using the TMDB API to offer personalized movie recommendations, trailers, and genre-based discoveries for a seamless viewing experience.
- **Explore the app**: click here
- **GitHub Repository**: click here
- **Tools**: React, CSS3, TMDB API

To-Do List App

- The To-Do List App is an efficient tool for organizing daily tasks, allowing users to add, categorize, and track tasks by date for easy management and prioritization.
- **Explore the app**: click here
- **GitHub Repository:** click here
- **Tools**: React, CSS3, Bootstrap

Personal Website

- A responsive personal website highlights my background, skills, education, and portfolio, featuring a contact form for an engaging user experience across all devices.
- **Explore:** click here
- **GitHub Repository**: click here
- **Tools**: HTML5, JavaScript, CSS3, Bootstrap

Personal Website (First Project)

- My first web development project, featuring sections on my background, education, skills, and a contact form. It showcases my early frontend development and foundational web design skill
- **Explore**: click here
- **GitHub Repository:** click here
- **Tools:** HTML5, JavaScript, CSS3, Bootstrap
